

THE INTERNATIONAL
REC STANDARD

This Redemption Statement has been produced for

MOLINO BALMACEDA S.A.

by

ACIERTA ENERGIA SPA

confirming the Redemption of

3 148.500000

I-REC Certificates, representing 3 148.500000 MWh of
electricity generated from renewable sources

This Statement relates to electricity consumption located at or in

**José Manuel Balmaceda 1726, Santiago, Región Metropolitana de Santiago
Chile**

in respect of the reporting period

2023-04-01 to 2023-12-31

The stated Redemption Purpose is

Certificar consumos como provenientes de fuentes renovables

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are 'incl' the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; 'excl' means carbon offsets relating to these MWh may be traded independently at some point in the future.

Thermal plants emit carbon as part of the combustion process. While this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.
